FOR RELEASE: IMMEDIATELY

Dodge, Jeep and Chrysler owners, your power is here!

AMERICAN FALLS, ID

The Chrysler family (Chrysler, Dodge & Jeep) of vehicles have always been popular among enthusiasts and now owners of those vehicles with a Hemi motor have something to celebrate; power and economy for a very low price with the Bully Dog Triple Dog GT.

Bully Dog Technologies, the company known for their amazing technology, has done it again with the introduction of the GT or Gauge Tuner. The new product is actually four products all rolled into one sleek, new design. It serves as: a downloader that adds power, a tuner allowing for multiple drive-train settings to be tuned and adjusted, a gauge that is fully customizable to each user's preferences and monitors four gauge functions at one time, and lastly it is a Driving Coach. This revolutionary Driving Coach software monitors wasted vehicle energy and then informs the driver how to change their driving habits to increase fuel economy.

The added Chrysler vehicles added to the GT include:
